## Gusts

# Hazardous Weather

**Day 1 Weather Hazards**  
**Valid: 0800 Sat - 0800 Sun**

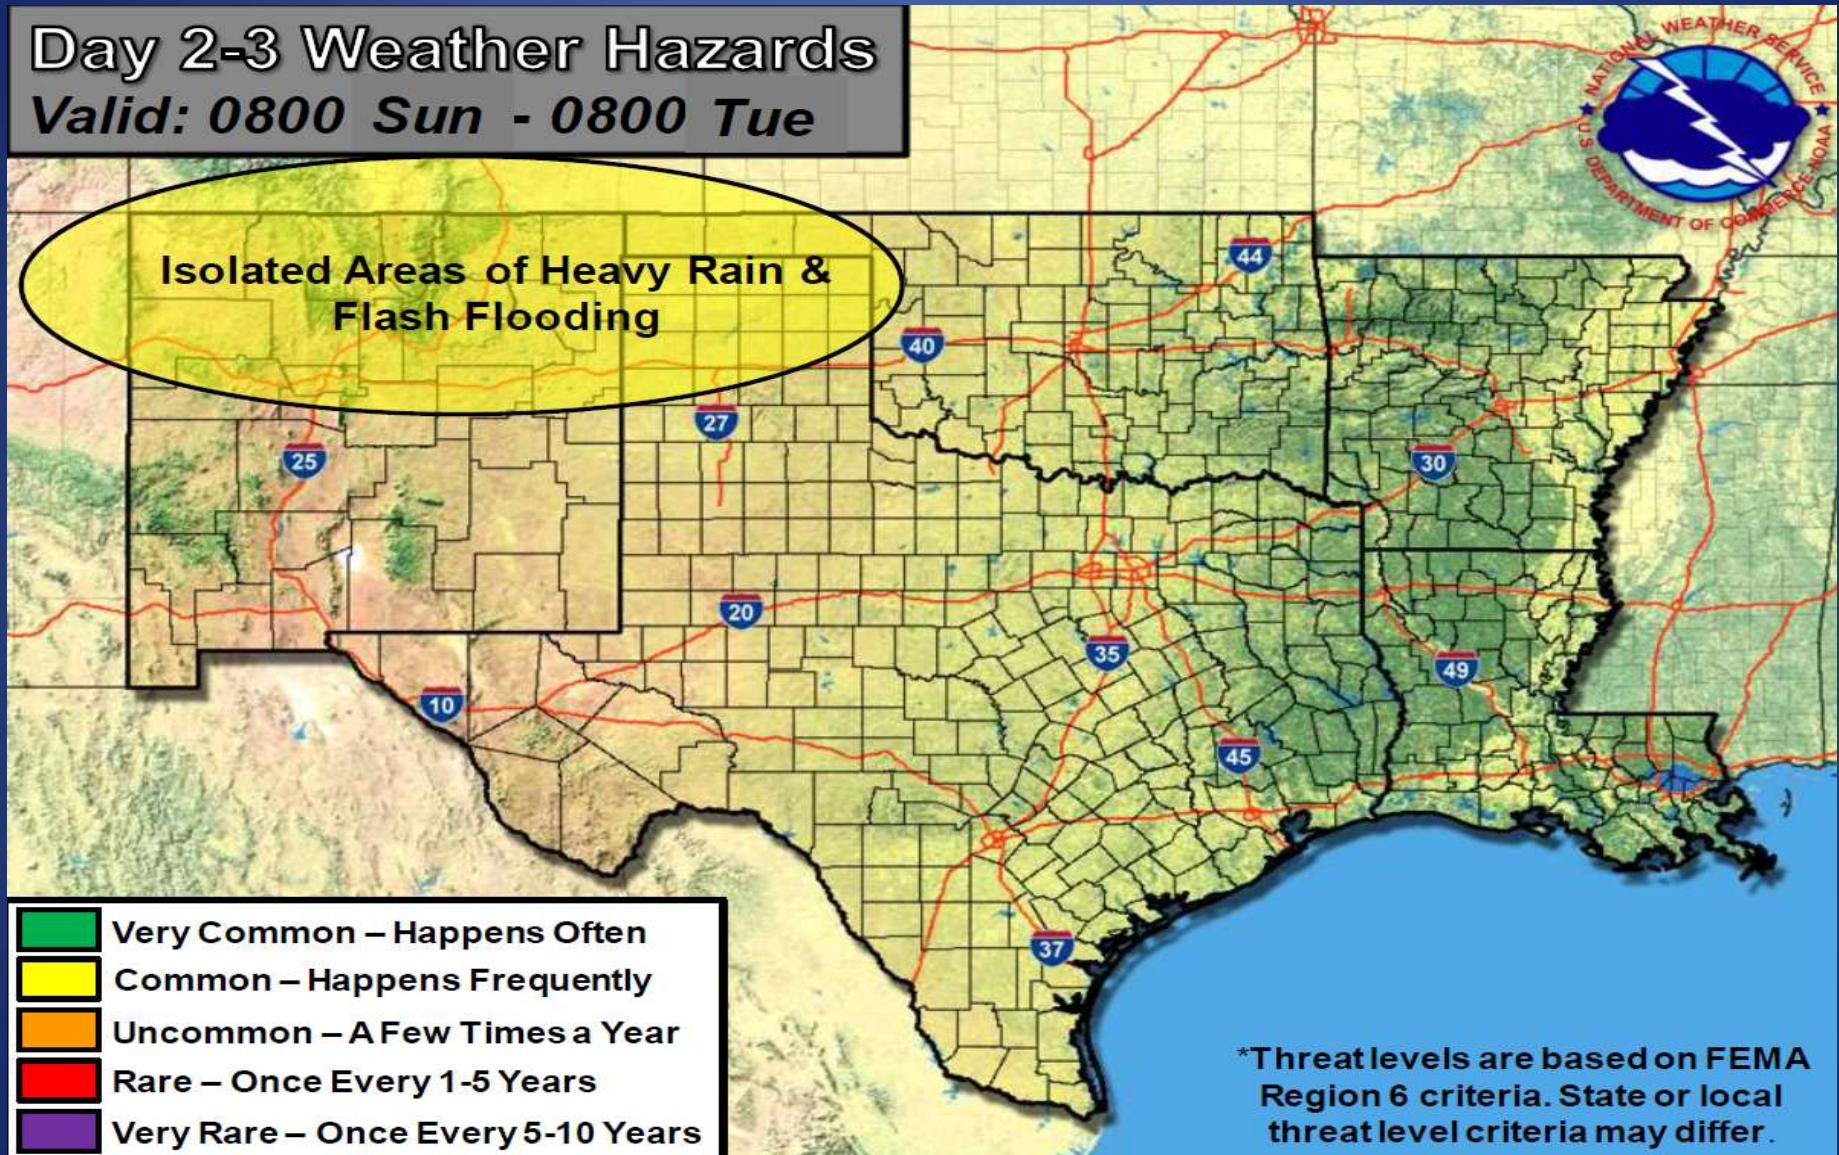

# Hazardous Weather

**Day 2-3 Weather Hazards**

**Valid: 0800 Sun - 0800 Tue**

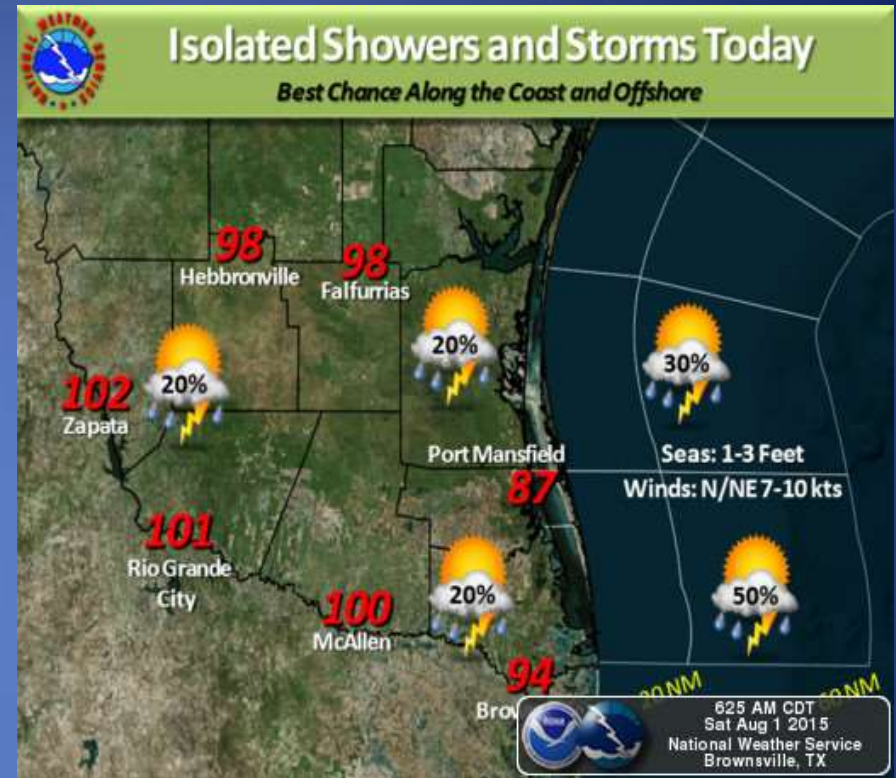

# Hazardous Weather

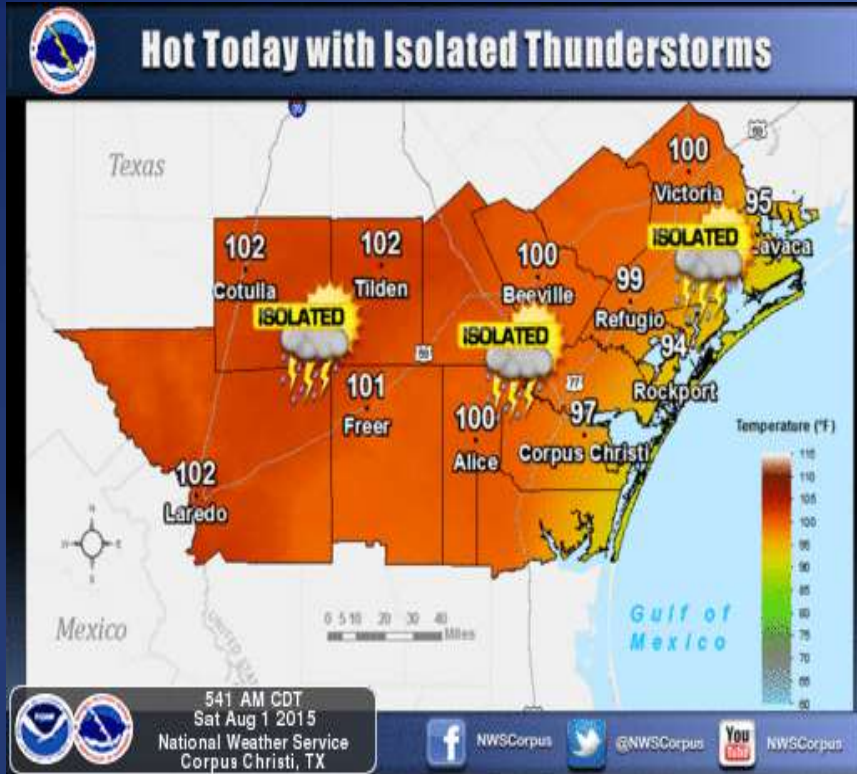

It will be partly to mostly sunny today with widely scattered showers and thunderstorms west of a Bowie to Comanche line. Highs will be mostly in the 90s, but locally cooler in and near any thunderstorms today. Winds will become east to southeast at 5 to 10 mph.

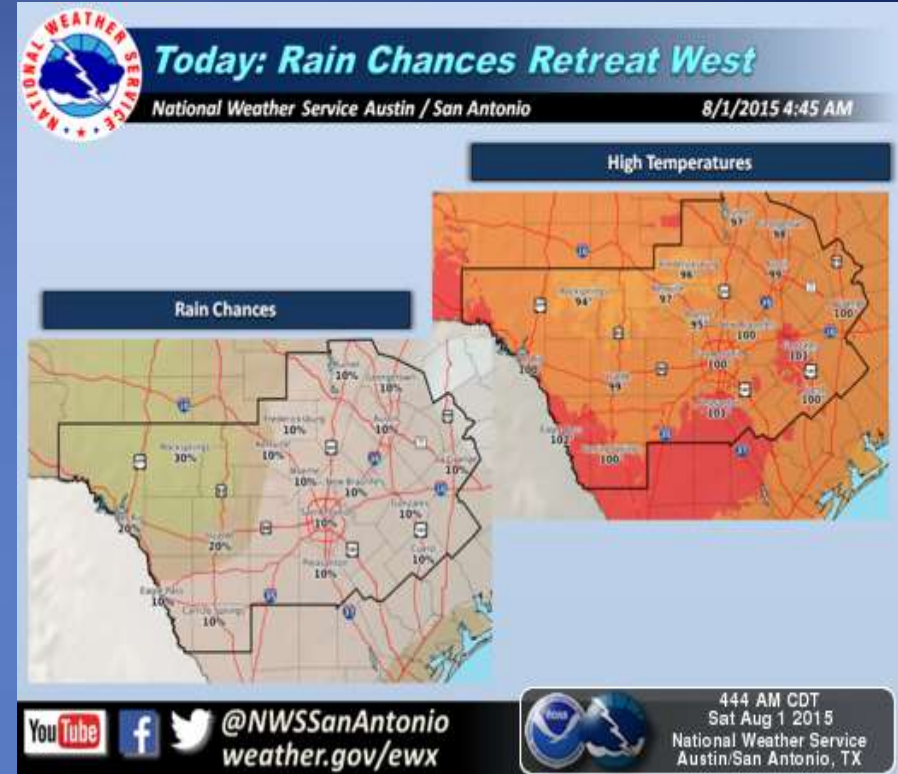

The disturbance over the northwest Gulf of Mexico will provide a slight chance for showers and thunderstorms for Deep South Texas this afternoon, with the best chances being along the lower coast and in the offshore Gulf waters, so be aware of changing conditions if you have boating plans today. Temperatures will range from the upper 80s near the coast to around the century mark in the Middle and Upper Valley.

# Hazardous Weather

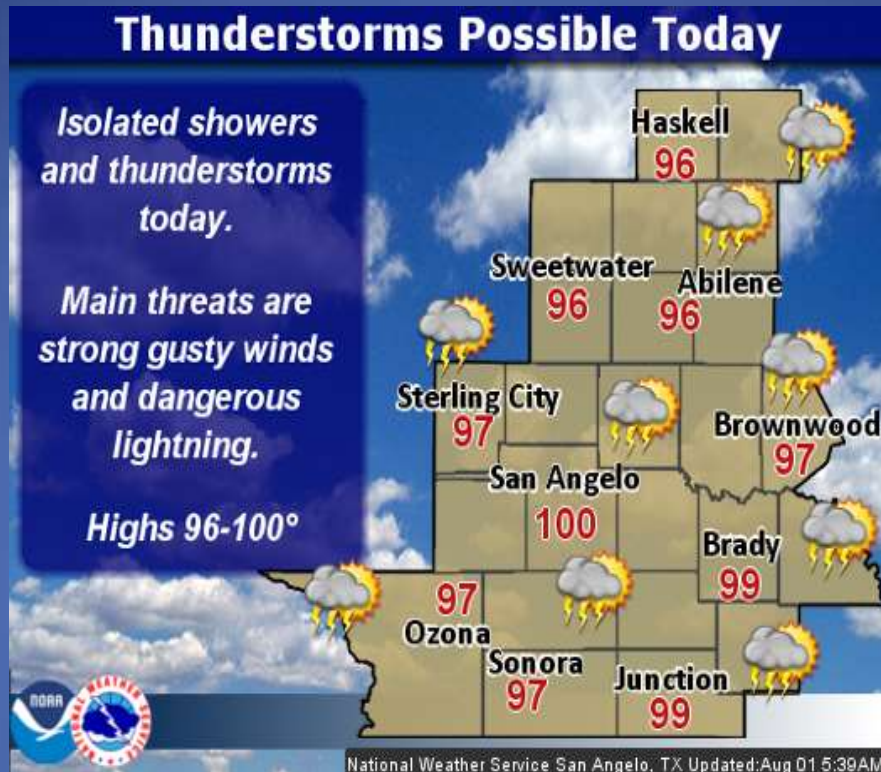

Isolated showers and thunderstorms will be possible today across South Texas and the Middle Texas Coastal Waters. Expect another hot afternoon with highs in the upper 90s across the Coastal Bend to 100-102 degrees further inland. Light winds today will offer little reprieve from the heat, but drier air across the region will keep it from feeling too humid this afternoon.

Rain chances retreat westward, or into areas mainly west of a Kerrville to Eagle Pass line today. Some strong storms will be possible with gusty winds in excess of 50 MPH. Otherwise, high temperatures will be in the upper 90s to near 103 degrees across the area.

# Hazardous Weather

**Isolated showers and thunderstorms will be possible today.  
Expect afternoon highs between 96 and 100 degrees.**

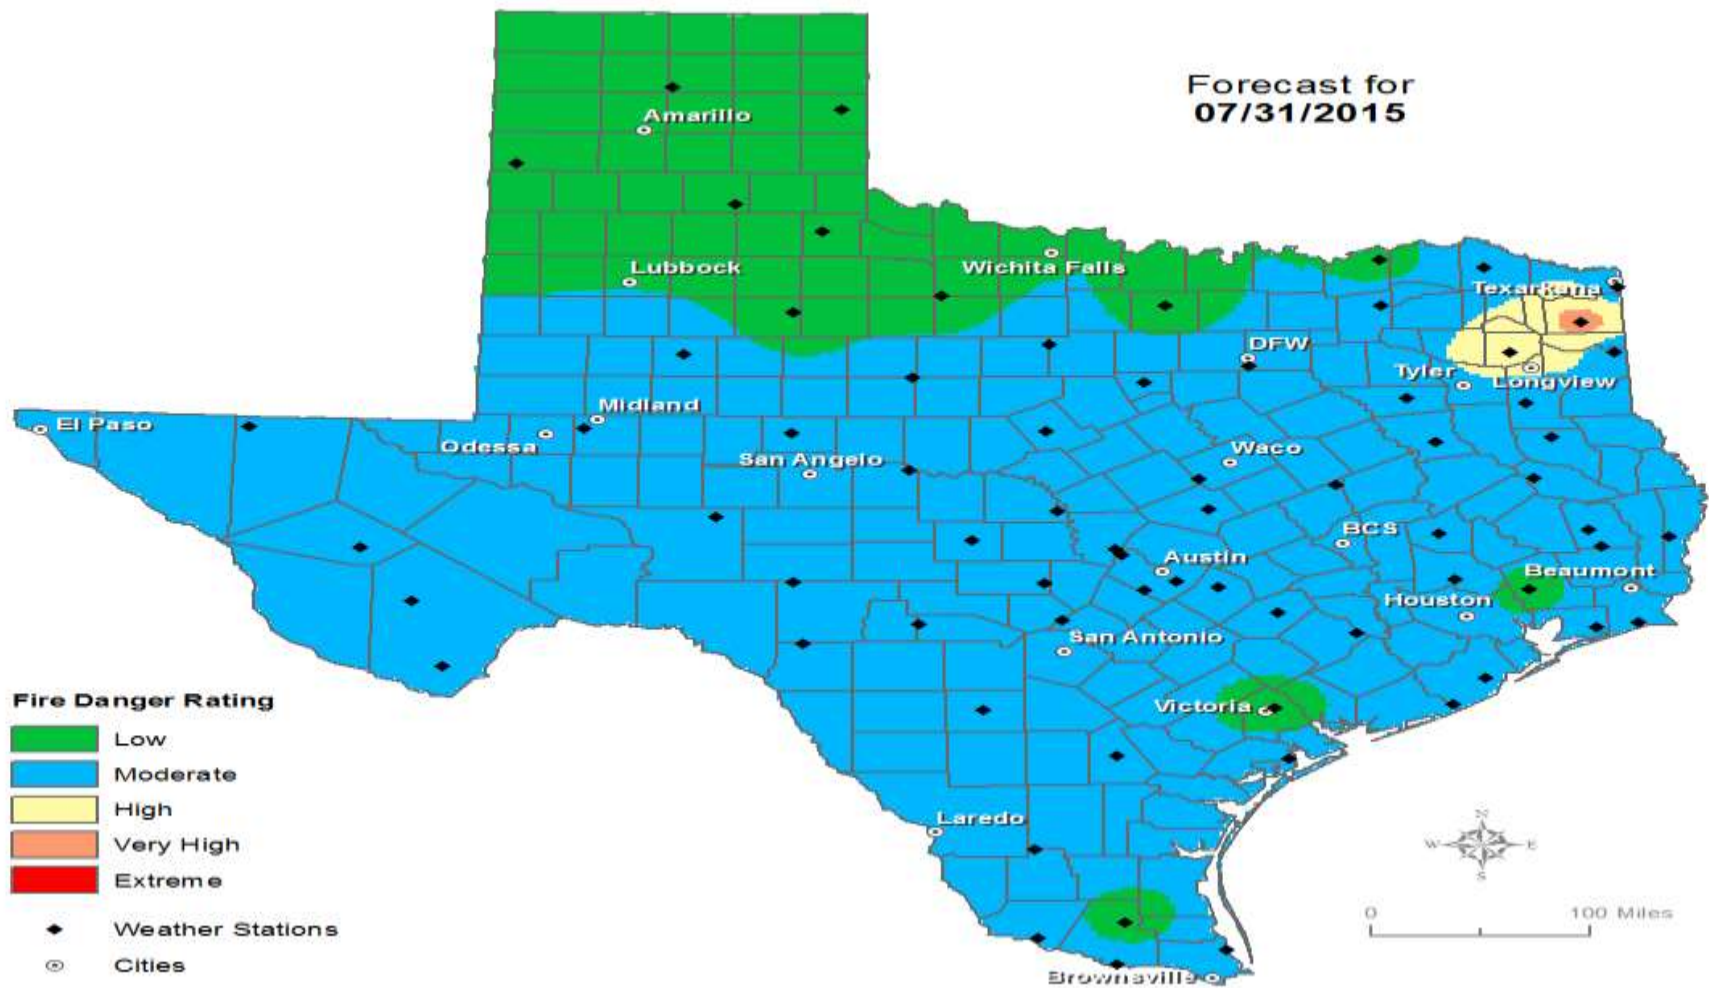

# Weather Warning/Advisories Issued
